

### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Peck on 4/11/08.

In lieu of the amended claims from the Amendment after Final of 2/26/08, the claims shall instead be amended as follows:

1. (Currently Amended) A method comprising:

receiving, by a computing device, a key matrix having N rows and M columns of matrix keys, where  $N > 2$  and  $M > 2$ ;

for each column of the key matrix, performing, by the computing device, arithmetic operations utilizing matrix keys of at least two selected rows of the key matrix to produce a secret device key which is part of a first set of secret device keys;

producing in memory of the computing device, by the computing device, a shared secret key based on arithmetic operations on selected secret device keys of the first set of secret device keys, the selected secret device keys being a portion of the first set of secret device keys and being determined based on a first key selection vector received from a recipient digital platform; and

using the shared secret key to provide a secure communication channel between a first digital platform and a second digital platform.
